Based on the true events from 'Memoirs of an Angel'+ by Jim Huggins, 'FOOTPRINTS'+ tells the story of a young man struggling to find acceptance. It tells the story of Cadie, an abused German Shepherd no one wanted. It highlights God at work as He joins their paths together to overcome their fears and serve others in ways that only He could imagine. 'FOOTPRINTS'+ is a story about the power of love to change lives and overcome the challenges we face everyday.

The movie follows a young boy named David and the struggles he faces into his adult years. As a boy, we see him dealing with a harsh father. David's mother loves and nurtures him but, when tragedy strikes, she's taken away from him. At the tender of age of five, he finds himself orphaned and alone.

As a young man, the unconditional love of animals has David caring for German Shepherds no one else wants. Abused and considered worthless, David identifies with these dogs better than most.

When a special dog named Cadie comes into his life, in addition to a new wife named Hope and a step-daughter named Shelby, David finally has a chance to live the kind of life he's longed for. Even so, he continues to face challenges along the way but learns that God uses many different tools to help him through life. As one character in the movie puts it, 'Cadie really is an angel in a fur coat!'

Filed with the help of over 500 volunteer cast and crew throughout the Southcoast of Massachusetts and portions of Rhode Island, 'FOOTPRINTS'+ has gained critical acclaim among viewers and film critics alike. Audiences everywhere have embraced its compelling portrayal of hope, love, and redemption. As one cast member put it 'this is a story that needed to be told.'

In addition to outstanding talent and a compelling story, the film features an inspiring musical score. Much of the original score was composed and performed by Brattleboro, VT native and Agape Christian Fellowship Pastor, Bryan Gantt. The release also features the title song 'FOOTPRINTS'+ by Andrew Finn and Jim Huggins featuring Joel Pinson.

Heralded as 'a wonderful story+', the Dove Foundation awarded 'FOOTPRINTS'+ 4 Doves and urges people to 'Catch this one!'+ Dr. Ted Baehr of movieguide.org in Hollywood also gives 'FOOTPRINTS'+ high marks proclaiming the movie is 'well worth watching!'+

Finally, a family movie the WHOLE family can enjoy!
